NITISH KUMAR

Full-Stack Developer +916206774025 nitish6206774025@gmail.com nitish-kumar-531352270 nitish-kumar3

Professional Summary

I have a strong background in Backend Development, Full-Stack Development, and AI technologies, with proven adaptability and quick learning abilities demonstrated through academic projects and internships at Sudha Software Solution and RV Web. I have consistently applied both technical expertise and strong communication skills to successfully achieve project objectives. I have good knowledge of Node.js, React.js, Express.js, MongoDB, Next.js, TypeScript, JavaScript, Java, Python, Django, and related web development technologies.

Experience

Hotel Management SaaS | Next.js, React, Redux, Express, TypeScript, Node.js, MongoDB 2025-07-2025-09

Sudha Software Solution

- Built a Hotel Management SaaS product with Next.js, React, Redux, Express, TypeScript, Node.js, and MongoDB.
- Designed a responsive UI with TailwindCSS and developed modules for booking, room services, and billing with secure APIs.

Projects

ChatApp |React,Tailwind,Node,Express,MongoDB

- Full-Stack Development: Engineered a real-time chat application using the MERN stack, JWT for authentication, REST APIs, and Axios for client-server communication.
- Real-Time Communication: Integrated Socket.IO to enable instant messaging, live user interactions, and seamless data synchronization.
- UI/UX: Designed a responsive and modern interface with TailwindCSS, ensuring a smooth and engaging user experience.

Portfolio |React,Tailwind,GSAP Live

- Designed and developed my personal portfolio website to showcase my projects and expertise in Full-Stack(MERN) technologies.
- Animation & Styling – Used GSAP for smooth animations and Tailwind CSS for clean, minimal design.

Quick AI |Neon,Express,Node,React,Clerk,Axios, Live

- Development Mastery: Built Quick AI leveraging React.js, Axios, and TailwindCSS with Clerk authentication for a seamless user experience.
- Features: Integrated Gemini API & ClipDrop API to enable AI content generation, CV review, background/object remover, and image generation.
- Backend: Developed secure REST APIs with Express.js, Node.js, and NeonDB for efficient data handling.

Course Selling App|MERN, Tailwind, JWT, Axios, REST API Live

- Development Mastery: Built a full-stack course selling platform with MERN, JWT, REST API, and Axios for secure transactions.
- Design: Crafted a responsive and intuitive interface using TailwindCSS with an integrated admin dashboard for course & user management.
- Highlights: Showcased expertise in scalable architecture, smooth navigation, and advanced front-end skills with React.

Technical Skills

- Language : C++, Python, Java, JavaScript
- Frontend: HTML,CSS,HTML5,Bootstrap,React.js,Redux,Nextjs
- Backend: JavaScript,Nodejs,Express.js ,Django, Typescript
- AI&ML: OpenCV,NumPy,Pandas,Matplotlib
- Other: Git/Github,REST Api ,Docker,Redis,Microservices

Education

S.n Sinha College Aurangabad 2021– 2023

Intermediate Percentage:-80.8

ICFAI University Jharkhand 2023–2026

Bachelors of Computer Applications CGPA:-(8.61)
